The Archive Internet is growing faster than ever, and we need your help. As an independent nonprofit organization, we build and maintain all our own systems, but we do not charge for access, we sell user information or publish in execution, rather than Powered by donations with \$ 30. Unfortunately, less than 1 in 1000 of our customers do. We have not asked many times, but at this point we have a gift campaign from 2 to 1, stumbling the impact of each donation. If each of our users gave only \$ 3, we could finish this collection of funds today - then if you find all these bits and atoms bytes, please, pitch. Brewster Kahle, founder, Archive Internet many people asked me to write a bio. Many people asked me to set up a package on Mr. Amari Soul, but I refused humbly. This is about you, the beautiful and strong woman. So I apologize if it's not what I expected to read at Bio, but that's what I chose to write. People do things for many different reasons. Some people do this for notoriety and others do it for fame, but I'm not interested in ... all that I want to change. - Mr. Amari Soul A great American intellectual and one of the most talented and astute journalists of the right. of the DA. Each of 1960, reforms destined to make the nation more fair and human, left many Americans to feel alienated, despised, misled and ready to put an adventurer on white house. Christopher Caldwell spent years studying the revolt liberal of the 1960s and its unforeseen consequences and its conclusion is this: even the reforms that Americans love to have come with costs that are incredibly high-in-wealth, freedom and stability that have been distributed unequal between classes and generations. Caldwell reveals the real political turning points of the middle of the last season, leading it on a roller coaster ride through Playboy magazine, affirmative action, CB Radium, Leveraged Acquisitions, iPhones, Oxycotin, Black Matéria Lives and Internet Cookies. In doing so, he shows that attempts to correct the injustices of the past left Americans living under two different ideas of what it means to play for the rules. Essential, timely, difficult to put down, the age of access to is an eloquent and stimulating book, full of insight (New York magazine) on how the reforms of the last fifty years, gave the two systems in incompatible and Drift it to the conflict. This book is really a reflection of everything that is inside me. He is a somatório of experience of a life and gives a very diverse perspective of how a man see the environment around him. My hopeful is that anyone who leaves this book will be able to connect with the author and see things from his point of view and feel what he felt at the time he wrote. I wanted to offer something that will call every emotion inside and leave a lasting impression on the reader that will last a long time. Being able to share something so personal and fulfilling the world is truly a bonit. I just hope those who do this work will like what they are. Then go ahead and break it open and enjoy. . . .
