Tropico android reddit

What is driving their logic? Hi all, I'm fine with it to a certain extent, but I don't want to rely on and annoy friends or have to buy a bunch of shit. Am I wishing for too much? I'm looking for a simulation game like the Anno or Tropico series, where you have to handle stuff like economy, resources, happiness, etc. I don't want to deal with the annoying ones like the mobile sim city game. androidpolice.com/2019/0... youtu.be/kpwYQ9... Page 2 youtu.be/kpwYQ9... Are there any games similar to Tropico (or Banished) or any of those wonderful games for Android? Tropicans seem to think so, as some will happily continue to stand at a bus stop for considerably longer than the metro trip would take to get to the same location. Devices that are not capable of running Tropico are blocked from purchasing it. You're a fan of Tropico so I know you have good taste! So I've been wanting to get in to a SimCity alternative on my phone since the official EA version, which, in addition to being largely overpriced seems to be total shit according to the reviews. Something that's equivalent to Tropico would be awesome, as well. Also, I'm annoyed by Social or freemium games. Requirements: Focused on management rather than on city-painting. Where I don't have to click popups (I tried one a bit ago and hated I had to click on buildings to collect resources, this should be automatic). Free or up to \$5. Single player or where the MP part is totally optional. Basically something where I build buildings that produce resources which then increases the population which then creates new requirements and unlocks new buildings so you build them but they have maintenance costs so you can't go crazy building, etc. 11.99\$, 12.99\$ Available devices (8.0 and up) • Google Pixel 2 • Google Pixel 2 XL • Google Pixel 3 • Google Pixel 3 XL • Google Pixel 3a • Google Pixel 3a XL • HTC U12+ • Huawei Honor 10 • Huawei Mate 10 • Huawei Mate 20 • LG V30+ • Meizu X8 • Motorola Moto Z2 Force • Nokia 8 • OnePlus 5T • OnePlus 6T • Razer Phone • Samsung Galaxy S8 (USA/China) • Samsung Galaxy Note8 (USA/China) • Samsung Galaxy S9 • Samsung Galaxy Note9 • Samsung Galaxy S10 • Samsung Galaxy S10+ • Samsung Galaxy S10e • Samsung Galaxy Tab S4 • Sony Xperia XZ2 Compact • Xiaomi Mi 6 • Xiaomi Pocophone F1 • The Samsung Galaxy S8 (Europe) and Galaxy Note8 (Europe) can run the game, but are not officially supported. If your device is not listed above but you are still able to purchase Tropico, your device is capable of running the game but is not officially supported. Buses have the advantages of not using power and being able to cross islands. Assume you have ample electricity and power's not an issue. Assume you have only one island to work with. Are there still compelling reasons to have buses? youtube.com/watch?...
