Currently we can accept the following file types as input: PDF Word PPT Excel JPG BMP GIF TIFF If you have, let's say, a PDF file you want to convert to a editable text-based document, upload the PDF to OCR online, click 'Word,' choose to use OCR and turn the file. If you want to have the file as PDF, in a condition that allows you to copy and analyze the content, you can return to the tool, upload the new Word document and save it in 'PDF' format. Similarly, once you convert a scanned document to a PDF document, you can use the tool again to convert it to other formats where you can edit the content, for example, a PPT presentation or an Excel electronic sheet. It is up to how you want to format data within each document. Also, feel free to run our OCR software on images, screenshots are common files to be passed around and senders usually do not think about how the recipient can use such documents. For example, once you convert a PNG screenshot to PDF, you can also convert it to Excel format if you require to add additional data entry to the document. Free online optical recognition The standard conversion of document formats is free for anyone to use. For OCR technology, you can sign up for a two-week process of Smallpdf Pro, which will guarantee you immediate access to this tool. OCR is synonymous with optical character recognition and describes the process in which we translate characters images from the file uploaded into the text encoded in the machine. In this way, we can also recognize the text and extract the written content by hand or printed by physical journals in a editable digital document. As the most popular PDF software, we want to allow access to OCRfor anyone who requires this technology. Depending on the flow, you can choose one of the 11 languages available, which will help us better understand the content of the files and improve the accuracy of the conversion process. oncour free online OCR to convert images to PDF or extract text from scanned PDF to another format—remember to check our suite of 20 other tools online. We can combine image files for you, electronically sign PDF contracts, and reduce files in smaller sizes, for ease of sharing. share. pdf to ppt converter ocr. ocr to ppt converter. pdf to pptx converter with ocr. ppt to word ocr converter
